Assignment for the next session

- Draft an outline of your "Statement of Purpose" essay.
  - This does not need to be incredibly detailed, but it should include enough information so that you could fairly easily write the full essay later on from this starting point.
  - See the recommendations in the "How to guide" doc also included in this GitHub repo and others linked from that doc.
- Bring that outline with you to our next session. You will share this with others in breakout rooms to receive feedback.
  - Be prepared to provide helpful feedback to your colleagues!
- Optional:
  - Exchange your outline with one of your colleagues (REU or other) for peer editing prior to our next session and incorporate those comments before sharing with our group.
  - Share your outline and/or discuss your plans for the outline with a research mentor to get their feedback.
